## Apollo Institute of Critical Care Medicine

Apollo Institute of Critical Care Medicine, Chennai is a Center of Excellence and is one of the largest tertiary care referral units in the country. Our Critical Care Unit has 73 beds, state of the art technology and round the clock accessibility to specialists. The Unit is managed by highly qualified and experienced group of intensivists headed by Dr.N.Ramakrishnan, Director, Critical Care Services. The volume and variety of patients, expertise of reputed specialists and dedicated teaching program has resulted in this department being one of the largest and most sought after critical care training programs in India.

The Department is accredited by Indian Society of Critical Care Medicine to offer its Diploma and Fellowship program and also by the National Board to train candidates for post-doctoral fellowship. In keeping with the tradition of Apollo Hospitals, the Department has trained several specialists in Critical Care Medicine who are now serving in various parts of India and also overseas. With its continued journey towards excellence, Apollo Institute of Critical Care Medicines has clearly emerged as a leader in providing efficient, effective and empathetic care to critically ill patients.
