With over 8500 beds across 50 hospitals within and outside India, the Apollo Hospitals Group is one of the largest healthcare groups in Asia and has some of the best hospitals in India. The legacy of touching lives stems from the four pillars of our philosophy - experience, excellence, expertise and research. At Apollo Hospitals India, we unite exceptional clinical success rates and superior technology with centuries-old traditions of Eastern care and warmth, as we truly believe the world is our extended family-something our 26 million patients across the globe can warmly affirm. This has made Apollo Hospitals as one of the most desired medical tourism destinations in India.
