Have a date with Healthcare IT

Not one, but two. 6th and 7th September 2013

India's only meeting point for professionals from the healthcare IT sector is set for an encore. The fourth one, to be precise.

For the last three years, people who matter in the healthcare IT space in India have been meeting at the industry's only official talking and meeting point – the conference on Transforming Healthcare with Information Technology. The first conference was held in New Delhi in March 2010, followed by the second and third ones which were held in Hyderabad in 2011 and 2012. What was noticed in the past three editions is the impeccable quality of speakers from India and abroad who brought to the table latest happenings in healthcare and information technology. This symbiotic relationship has enabled learnings from Information Technology transcend and help improve processes and systems in Healthcare. The fourth edition of International Conference on Transforming Healthcare with IT 2013 will be held on 6th and 7th September at the Hyderabad International Convention Center (HICC) and promises to be a blockbuster of an event. Join us be a part of the community that is revolutionizing healthcare.

Transforming Healthcare with IT 2013
