LEADING THE WAY IN SENIOR CARE, WITH APOLLO'S TRUSTED NETWORK

Your Health. Your Independence. **Our Commitment.**

At Apollo Bannerghatta, we ensure seniors receive the highest quality healthcare with dignity and respect. Our comprehensive services are designed to enhance quality of life, promote independence, and provide peace of mind to seniors and their families.

Take the first step towards a healthier, happier, and more independent future.

Dr.

Dr. Prathap C. Reddy

Founder & Chairman, Apollo Hospitals Group

Age should never be a barrier to living your best life. At Apollo Hospitals, we believe good health is the foundation of a fulfilling and independent life.

Your years of wisdom, experience, and resilience inspire us every day. It is our privilege to stand by you on this journey of wellness. Apollo Seniors First is more than just a healthcare program—it is a dedicated support system that listens, understands, and prioritizes your well-being.

With this commitment, we ensure that every senior receives the care, respect, and attention they deserve, empowering them to lead a happy, healthy, and fulfilling life.

AGING GRACEFULLY WITH APOLLO SENIORS FIRST

Live Life to the Fullest

Aging is a journey, and at Apollo Bannerghatta, we believe it should be a joyful, fulfilling, and active one. Our mission is to empower seniors to live their golden years with dignity, vitality, and independence.

With the launch of our Geriatrics Centre of Excellence and the Apollo Seniors First program, we bring together medical expertise and compassionate care to support you or your loved ones every step of the way.

We provide personalized health plans, proactive monitoring, and a range of services that integrate hospital care with home support, ensuring a smooth and supportive healthcare journey.

4. THE POWER OF APOLLO: A UNIFIED APPROACH TO SENIOR CARE

At Apollo, we believe that healthcare is most effective when all services work in harmony. Our Integrated Healthcare Network ensures seamless coordination across Apollo hospitals, home care, pharmacies, and teleconsultations, providing seniors with a continuous and connected care experience.

With the combined strength of **Apollo Hospital Bannerghatta, Apollo Home Care, Apollo Pharmacy, and Apollo 24/7**, we ensure that seniors receive timely consultations, uninterrupted medication support, at-home care services, and digital healthcare accessibility. Our holistic approach prioritizes your well-being, making high-quality care accessible and convenient for you and your loved ones.

SCIENTIFICALLY DESIGNED SUBSCRIPTION PLANS

Personalized & Comprehensive Senior Care

Aging is a journey that benefits from ongoing support and thoughtful care to maintain well-being and independence. Our subscription packages are designed to address fragmented care by ensuring seamless, proactive, and scientifically structured support. These plans are based on the Clinical Frailty Scale (**Annexure I**), a globally accepted assessment that helps tailor interventions to individual needs, ensuring the right level of care at the right time. APOLLO's subscription plans integrate hospital services, home care, and teleconsultations, providing seniors with a continuum of care that prioritizes well-being and independence. Each package is designed with inputs from specialists, patients, and caregivers, ensuring a holistic approach to seniors health.

TWO TYPES OF SUBSCRIPTION PACKAGES:

1. Wellness Packages - Focused on preventive and proactive healthcare for seniors to maintain overall well-being.
2. Active Care Packages - Designed for seniors recovering from medical interventions or managing chronic and long-term conditions.

WELLNESS PACKAGES

Staying Healthy & Independent

CLINICAL FRAILTY SCALE

1. VERY FIT People who are robust, active, energetic and motivated. These people commonly exercise regularly. They are among the fittest for their age.

2. WELL People who have no active disease symptoms but are less fit than category 1. Often, they exercise or are very active occasionally, e.g. seasonally

3. MANAGING WELL People whose medical problems are well controlled, but are not regularly active beyond routine walking.

4. VULNERABLE While not dependent on others for daily help, often symptoms limit activities. A common complaint is being 'slowed up', and/or being tired during the day.

5. MILDLY FRAIL People whose medical problems are well controlled, but are not regularly active beyond routine walking.

6. MODERATELY FRAIL People need help with all outside activities and with keeping house. Inside, they often have problems with stairs and need help with bathing and might need minimal assistance (cuing, standby) with dressing.

7. SEVERELY FRAIL People whose medical problems are well controlled, but are not regularly active beyond routine walking.

8. VERY SEVERELY FRAIL Completely dependent, approaching the end of life. Typically, they could not recover even from a minor illness.

9. TERMINALLY ILL Approaching the end of life. This category applies to people with a life expectancy <6 months, who are not otherwise evidently frail.
